Our team of system health consultants will help determine the right system solution for you.

We listen to you. Our specialized team at Parker Hydraulic Filter Division is listening to your needs and providing innovative solutions.

We collaborate with you. Together, we maximize the value of your investment and exceed your expectations.

We design solutions with you. Whether you fit into a standard product or require a custom solution, our network of specialized manufacturing and systems professionals work with you to develop the right system for your unique application.

We support you. Parker Hydraulic Filter Division provides local stock and technical design help, including 24/7 support. If you need technical assistance or application support, please call us toll-free at 1-800-C-PARKER.

16810 Fulton County Road #2
Hydraulic Filter Division
Parker Hannifin Corporation

Together, we can improve equipment uptime, increase efficiency and reliability that directly translates to bottom line results.

Total System Health Management

A comprehensive approach to long term asset health and reliability.

Diagnostic

Conditioning online and diagnostic tools with years of filtration and all line systems, machine operators receive real-time insight into changing circuit filtration and off-line systems, machine performance, and the anticipated life at the component level. Parker offers solutions to the bottom line.

Therapeutic

Clean, cool and dry systems contribute to increased production through as well as machine reliability and longer life. Therapeutic products can extend the life of your fluid beyond routine drain and change intervals as well as dramatically reduce waste and cost.

Preventive

Combining sensors and diagnostic tools with innovative products that cover your diagnostic, therapeutic and preventive needs. By taking this comprehensive approach, we ensure improved operational efficiency, productivity and reliability of your critical assets.

Parker Hydraulic Filter Division is your single-source supplier for managing your Total System Health.
Therapeutic

- off-line and portable
- communicates fluid condition for removing contaminants from hydraulic and lubrication fluid
- supports your existing filtration system
- improves reliability and performance of the life of your fluid and system components

Laboratory and Technical Expertise

- Precision High Flow Stand
- Test Stand
- Flow Rate
- Laboratory Flow Stand
- Static Charge Test Stand
- Brake Test Bench
- Computerized Multi-Port Flow Stand
- Viscosimeters
- Magnetic Flow Stand
- Microscopes with Digital Cameras
- Static Light Test Stand
